CBSE Sure-Shot Short Questions Evans Tries an O-Level Class 12 Eng. (40-50 words)

Q.1. What kind of person was Evans?

Answer:

Evans, "The Break," was a criminal, and he was in Oxford Prison. He has been in jail for a long time and was planning to run away from the prison; he succeeded. He befooled the cops many times. Moreover, he has never indulged in violence and is an amiable, calm, and jolly fellow.

Q.2. What were the precautions taken for the smooth conduct of the examination?

Answer:

The Education Department organized the examination and appointed Macleery as an examiner to conduct the O-Level in the prison. The governor took all the necessary precautions to conduct the exam smoothly and to stop Evans from running away from the prison. For him, they hire a German tutor. He teaches Evans for six months and Evan even befriends him during that time. The term "electronic commerce" refers to the sale of electronic goods. Evans, on the other hand, tells him that he might surprise everyone. As a result, the exam day arrives, and his cell is currently being inspected. The officers seize anything he might use to injure himself.

Q.3. Will the exam now go as scheduled?

Answer:

The Governor discovers Evan has no history of violence and is rather amusing. To stop Evan, who was also called "The Break," from running away from his cell, the jail authority allows the exams under strict vigilance under the guidance of the Governor of the jail itself. As a result, despite the strict vigilance and security in the cell, the jail authority allows him to appear for an O-Level, which becomes the act of escaping from the prison. As a precaution, arrangements were being made to examine Evans' cell.

Q.4. Did the Governor and his staff finally have a sigh of relief?

Answer:

The exam goes off without a hitch, and Stephen leads the invigilator out to the main gate. Jackson discovers the invigilator is injured in Evan's cell and is bleeding profusely. Hence, they immediately concluded that Evans, in the disguise of McLeery, had escaped from prison. They sent McLeery to the hospital, as they were in a hurry to catch Evans. Later, they found that McLeery never reached the hospital for treatment of his wounds.

Q.5. Will the injured McLeery be able to help the prison officers track Evans?

Answer:

Thus, the jail authority concluded that the man who left the jail first was McLeery himself, who was a friend of Evans and who came to teach Evans on the jail campus. The jail authority couldn't recognize Evans as the blood had covered his whole face, which he had brought in a rubber tube. Thus, Evans and his friend McLeery befooled the jail authorities again and escaped from the strict vigilance of the jail authorities, hence the term "The Break," which fits into the character of Evans.

Q.6. Will the clues left behind on the question paper, put Evans back in prison again?

Answer:

Evans managed to escape the jail by cheating the jail official even after the foolproof planning of stopping him to escape. He left behind several hints, which the government deemed to be "careless" behavior. A question paper with instructions for the alleged scheme was overlaid on the background. It became apparent, though, that whatever he had written was a lie and was intended to deceive the officials. However, they were able to find him thanks to the "correction slip" and the little German the Governor knew.

Q.7. Where did Evans go?

Answer:

Evans reached the Golden Lion hotel in Chipping Norton after successfully misleading the cops.

Q.8. How does Evans manage to walk out of his prison cell? 2019 set 2

Evans was thus once more a free man.

Does this show how hasty conjectures can prevent one from seeing the obvious? How is the criminal able to predict such negligence?

Answer:

The jail administration concluded that McLeery, an Evans acquaintance who had come to educate Evans on the jail site, was the person who had left the facility first. Because Evans had

carried blood in a rubber tube, his entire face was covered, making it impossible for the jail staff to identify him. The term "The Break," which perfectly describes Evans' temperament, came about as a result of Evans and his comrade McLeery deceiving the jail authorities once more and escaping from their careful watchfulness.

He was so shocked to see the hurt McCleery in the jail that neither he nor anyone else bothered to ask their identities. No one thought to wonder how there could be two people there, one in the cell and the other being led away by Stephens. Moreover, a criminal's intelligence is sharp enough to anticipate any prospective official neglect. During his time in prison, Evans must have observed things clearly and formulate strategies accordingly.

Q.3. What could the Governor have done to securely bring back Evans to prison when he caught him at the Golden Lion? Does that final act of foolishness prove that “he was just another good-for-a-giggle, gullible governor, that was all”?

Answer:

Evans was a cunning and astute criminal. He had effectively identified the jail authorities' flaws. Stephen was a new employee in the prison system. He was so shocked to see the hurt Mcleery in the jail that neither he nor anyone else bothered to ask their identities. No one thought to wonder how there could be two people there, one in the cell and the other being led away by Stephens. For precisely this reason, the friend of Evans who had called pretending to be the Governor had instructed Stephens to personally lead the parson outside once the test was over.

Evans was led out of the prison by the governor and his guards. The purpose of leaving the exam paper behind was to deceive the governor. This demonstrates that Evans the criminal had ample time to thoroughly organize his tactics and research the behavioral trends of the correctional authorities. Stephens found McLerry in the cell bleeding heavily when he got back. He raised an alarm, assuming Evans, not McLeery, was the man he had led to the gate. Nobody on the official staff even attempted to confirm that this McLeery was the rightful owner. Nobody questioned how the bleeding McLeery knew the strategy as he offered to assist the police in finding Evans.

Later, when the Governor apprehended Evans and returned him to jail with the prison guards, he was unaware that this guard was unfamiliar to him. It quickly came to light that the cops were

Evan's guys who had assisted him in making another escape. Therefore, it is undeniable that the hasty speculations made by the credulous officials led to their later neglect.

Q.4. While we condemn the crime, we are sympathetic to the criminal. Is this the reason why prison staff often develop a soft corner for those in custody?

Answer:

Evans, "The Break," was a criminal, and he was in Oxford Prison. He has been in jail for a long time and was planning to run away from the prison; he succeeded. He befuddled the cops many times. Moreover, he has never indulged in violence and is an amiable, calm, and jolly fellow.

Evans was a cunning and astute criminal. He had effectively identified the jail authorities' flaws. Stephen was a new employee in the prison system. He was so shocked to see the hurt Mcleery in the jail that neither he nor anyone else bothered to ask their identities. Evans was led out of the prison by the governor and his guards. The purpose of leaving the exam paper behind was to deceive the governor.

It means, we condemn the crime, but we are sympathetic to the criminal as the Governor convinces the Secretary that Evans deserves to take the O-level German examination as they learn from additional study that Evan is quite funny and has no history of violence.

Q.5. Do you agree that between crime and punishment it is mainly a battle of wits?

Answer:

In this chapter, Evans Tries an O-Level, the writer, Colin Dexter, creates different scenes to explain his question, "Should criminals in prison be given the opportunity of learning and education?" Is it a battle between crime and punishment, or is it mainly a battle of wits? Evans was a cunning and astute criminal. He had effectively identified the jail authorities' flaws. Stephen was a new employee in the prison system. He was so taken aback by seeing McLeery in pain in jail that he and no one else bothered to inquire about their identities. No one thought to wonder how there could be two people there, one in the cell and the other being led away by Stephens. For precisely this reason, the friend of Evans who had called pretending to be the governor had instructed Stephens to personally lead the parson outside once the test was over.

On the other hand, a criminal planning a crime creates a perfect strategy, taking account of the complexities and avoiding rash assumptions. He is prepared with alternatives. Additionally, a criminal's intellect is perceptive enough to foresee any potential governmental neglect. During his time in the penitentiary, Evans must also have seen these clearly and made plans by them.

Hence, we can say that in the chapter, "Evans Tries an O-Level," Evans is a criminal, but due to his wits, he escapes punishment and runs away from prison.

Q.6. What precautions were taken by the prison officials to prevent Evans from escaping? 2019

Answer:

Evans, "The Break," was a criminal, and he was in Oxford Prison. He has been in jail for a long time and was planning to run away from the prison; he succeeded. He befooled the cops many times. Moreover, he has never indulged in violence and is an amiable, calm, and jolly fellow.
